FINANCIAL AND COMMERCIAL.

Suspay, April 8, 1866. The stock market was active but feverish till near the end of last week, when it became more settled, and with a strong upward tendency. The disturbing and exciting features of the railway speculation were the upid rise in Michigan Southern and the forced depresry, sold at 104 cash on Thursday morning at the ppon board, while it was careful as open actives piction of three days. Erie was at the same time being rigilantly hammered by, as is supposed, one of the leading directors, who was known to be short!" of stocks, including Old Southern, the ourse of which aroused his tre to such a degree hat he appealed to that blind goddess who holds he scales through the Superior Court for an injunction. ough the Superior Court for an injunction, was not heeded, and the horrifled Ursa Major of Broad treet had the Old Southern, of which he was "short," Exchange. Bent upon punishing his enemies with the utmost rigor of the law, however, he has made a supcomplaint, in which he charges his own nd the President of the Board with being milist upon him "great damage," and will sit in judgment and hear the ats for and against his application on Mon-eanwhile, to add to his discomfiture, Eric, col, has bounded upward like a kite, and on Saturday at 79% a 80. The most in Wall street just now is that sug-"Pity the Sorrows of a Poor Old was a strong demand for Cleveand and Pittsburg as the week advanced, and at halfa %. Erie was at the same time quoted at 79% a 80, Michigan Southern 81% a 82, Hudson River 106% a 107, Northwestern 2614 bid, preferred 5514 a 56, Rock

old bearing stocks declined % a % per cent, and ten-orties %; seven-thirty notes % a %. This was in part London Stock Exchange reported by the last two steamers, in sympathy with the general sense of anxiety which was felt in relation to the Austrian-Prussian question. The failure, under discreditable circumstances, of the London Joint Stock Discount Company, and the panic in the stocks of finance companies at the same time, contributed to the depression of prices generally on the

noney at six per cent, with a few exceptions on Satur-ny at five, and all the indications are favorable to uninmonetary case. The discount market has taken at 7 a 8 per cent. The failure of Culver, in this city, and more recently that of Ward of Rochester, together with the run upon the caused lenders to accutinize names closely employing it in discounts. Increased nd a more confident tone have characterized our markets, however, during the last fortand gloom which marked February and the art of March will be compensated for by in-nimation in the future. There is still a certain animation in the future. There is sain a certain of foverish anxiety and uncertainty manifested yard to the course of prices, but this is hopful arison with the previous depression. The dry-ade was active at improving prices during the the week, but afterwards the demand sinck-flow of currency from the West still conthe tide will probably turn from East to he fact, however, of the latter section being

when it weakened under a large supply, and on saturday they were sold second hand at 106, although 105½, was asked by some of the leading drawers. Cotton declined about 22: per pound during the week. The receipts in this market for the week ending on the 20,301 bales; the exports for the week ending on the 4th nst., 10,902 bales. At Liverpool, the market has been rather heavy, under large receipts from the United Silves and the East Indica.

The changes in the last statement of the public debt, to when we called attention a few days ago, still await explanation from Mr. McCulloch. The people have a right to know why and on what terms the Treasury bought up \$1,500,000 of the forty bounds, \$2,000,000 of the seventhirty soan before maturity; also, why and on what terms it cold \$2,500,000 of five-twenty bounds and \$1,002,500 of the sixtee of ISSI. It is evident that there was an exchange of ten forties, seven-thirties and compound notes for six pri cent bonds, and the transition for the same an exchange of the forties and compound notes for six pri cent bonds, and the transition for the same and the compound interest notes, which, by the way, medical ender a private one. What the Treasury had to gain by it we cannot discover, the more particularly as concerns the ten-forties, the longest stock in market, which certainly needs no conversion. The compound interest notes, which, by the way, who are induced to hold a larger logal tender reserve than they otherwise would do in consequence of these interest hearing notes forming a portion of it. They were first signested by Mr. J. H. Wainwright, of this city, in a letter to Mr. Chase, dated January 1, 1802, call for the sity of the six of 1801, 1035, 10 resource for the Treasury during the funding of our large familing debt. The further increase of \$3,174,001 in the temporary loan, shown by the statement, suggests the inquiry why the Secretary does not suspend receiving temporary deposits or further reduce the rate of interest on such in the present condition of its affairs; for it can hardly avail itself judiclosety of more than a hundred and twenty millions returnable after ten days action, excepting twenty-five millions in the form of Clearing Hungs certificates. Clearing House certificates, which are payable on de-mand. The statement shows that while he debt in various shapes was increased \$7,914,799 between March I and April I, it was reduced in other ways \$5,307,427, exclusive of \$2,962,440 in get certificates, adding which the reduction would be \$5,289,861. The following is a statement of the amount of each class of securities out standing at the beginning of the present and the pre-

of the adiairs of said banks should be made in order to a legal and proper distribution of their assets among all persons entitled to share in such distribution; therefore,

1. Be it enacted by the General Assembly, That it shall be lawful for the president and directors of any bank chartered by the General Assembly of Virginia to make, or cause to be made, a deed, conveying to such person or persons as said president or directors may select all the assets, real and personal, of said bank, and providing in such deed that the proceeds of said assets shall be distributed among all persons, corporations and associations entitled to share in such distribution, according to the legal rights and priorities of such persons, corporations and associations at the time such deed shall be executed.

2. Be it further enacted, That whenever any creditor or creditors offony bank of this Commonwealth shall, by any suit or other legal process whatever, seek to obtain a judgment, decree or order, which said judgment, decree or order, when rendered or made, would create a lion in favor of such creditor or creditors of such assets, and thereby entitle such creditors or creditors to such assets of the said bank, or upon any portion of such assets of the said bank in or their just and malale share or shares in the distribution of the proceeds of all the assets of said bank, then, and in that case, and in order to preserve the just rights of all creditors of said bank in the farther enacted. That is shall be the duty of the provisions of this farther cause of fall thank, and they are hereby required to make, or cause to be made, a deed of conveyance of the sasets of said bank in such manner and form and for such assets of the banks of this Commonwealth or the last section of this act, so far at heast of which have some public newspaper of the Stat
